

Super Shrink Art Instructions

1

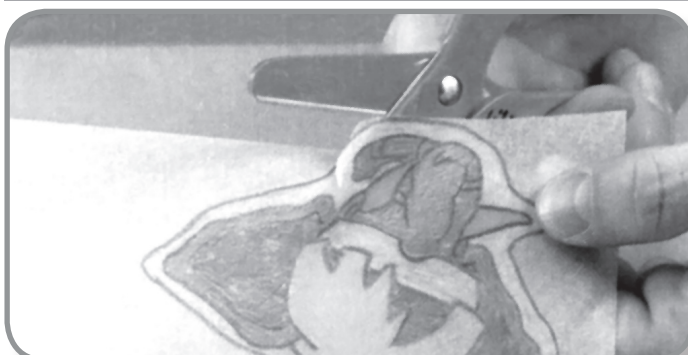

Place a sheet of Shrinky Dinks over a design with the rough side up. Trace the design including the thin cut line around the edge. When tracing letters, draw your own cut line approximately 1/4 inch away from letters.

2

Color and decorate your artwork with the colored pencils. Be sure to stay only on the rough side of the Shrinky Dinks.

3

Ask an adult to help you with this step. Cut out your colored design from the Shrinky Dinks sheet following the traced cut line. Make sure all of the edges are smooth. Do not leave any sharp corners or they will become very pointy when you shrink the art. Use a hole punch if you want to make a keychain.

4

ADULT SUPERVISION REQUIRED FOR BAKING. Pre-heat your kitchen oven or toaster oven to 325° (163°C) **DO NOT MICROWAVE.** Place your creation onto a non-stick cookie sheet with the colored side up. Place in oven and **WATCH** the baking process. It takes 1-5 minutes depending on the thickness of the cookie sheet. Piece will curl and then flatten out. Bake another 30 seconds then remove from heat. Let cookie tray and art cool for 3 minutes before touching.
